David R. Hedditch
Chairman: Airport Advisory Board

Dear Commissioners:

As per our agreement with the FAA concerning our last airport audit, Ravalli County Airport cannot allow people to live in hangars on airport property as it violates the FAA grant assurances. Our old leases did not state hangars could not be used as a residence. In a compromise with the FAA, they allowed current hangar residences to remain but all new leases would not allow a hangar residence. As each old lease expired, a new lease would be required prohibiting hangar residences. Bob Schweitzer's hangar (#268) lease is up for renewal and the new lease does not allow him to live in his hangar. The Airport Advisory Board is recommending the commissioners allow Bob Schweitzer 60 days to vacate his residence in this hangar.

Sincerely,

David R. Hedditch

Chairman: Airport Advisory Board
